Projects

Personal Portfolio Website
Jun 2025
- Built responsive React + TypeScript portfolio showcasing skills and projects
- Implemented animations, dark/light mode toggle, and SEO optimization
- Optimized performance and accessibility; deployed on Vercel

StudyWithFlow AI – Smart Study Planner
Jul 2025
- Developed AI-enhanced planner with adaptive study schedule generation
- Built interactive React dashboard with charts, timelines, and task prioritization
- Integrated sound effects, local storage, and offline session recovery

FAANG Interview Prep Platform
Aug 2025
- Full-stack DSA platform using React, Node.js, Express.js, and MongoDB
- Implemented authentication, progress dashboards, and topic filters
- Added gamified learning paths for FAANG interview preparation

React Food Delivery App
May 2025
- Built scalable UI with real-time cart updates, search, and category filters
- Used React Hooks Context API for state management and performance
- Implemented mobile-first responsive design and touch interactions

AI Yoga Trainer
Sep 2025
- Developed computer vision-based yoga posture detection system
- Provided real-time feedback and corrective guidance
- Integrated webcam capture, pose estimation, and user-friendly UI

Certifications & Achievements

- C Programming (Pointers, Structures, File Handling)
- Cyber Security Fundamentals
- SSLC School Topper (99%)
- Top 5% of PU Batch
- Volunteer, National Conference on Innovation – JSSATEB (2024)

Extracurricular

- Active coding club member; led hackathons and DSA sessions
- Participated in Google Developer Student Clubs (GDSC) events
- Organized technical fests, workshops, and guest lectures
- Mentored juniors in web fundamentals and Git/GitHub workflows
